Greetings!

As 2022 comes to a close, we wanted to thank all of our readers for supporting Miles Consulting and continuing to engage with us throughout the year. We hope that the articles and information that we share with you throughout the year are informative and thought provoking. As you can tell, our specialty of state tax consulting and compliance is always evolving as states continue to provide unique challenges for our clients. We love working with our clients to resolve those matters and add some clarity.

We end the year with an article about economic nexus – and the last state (Missouri) to implement economic nexus rules. We also welcome and spot-light our newest team member, Senior Tax Analyst, Maritza Rangel. Please feel free to drop her a line to welcome her to Miles Consulting. She's in the picture we share below from our year end holiday party. Finally, check out the 2 webinars we are presenting on in January. The links are included below.

Finally, we wish you and your family a very happy holiday season and good wishes as we move quickly to 2023. May your upcoming year be happy and prosperous. We look forward to seeing you (either live or virtually) in the upcoming months. If we can be of any assistance, as always, please do not hesitate to reach out to any of our team members.

Happy New Year,
Monika Miles & Bill Loew

A USEFUL GUIDE TO ECONOMIC NEXUS AND NEW MISSOURI STATE TAX UPDATES

Are you a large company with operations in multiple states? If so, it's essential you stay up to date on economic nexus or state sales tax changes that may affect your organization. Trying to keep track of all the laws and regulations can be a daunting task, but thankfully we've put together guidance designed to help make sense of these complex topics. We provide an overview of what economic nexus is and how it impacts businesses that operate in multiple jurisdictions, as well as outline the specific impact of recent Missouri legislation on companies doing business within its boundaries. With this information at hand, you can be sure your business remains compliant and avoids costly penalties.
